

ANESTHESIA LOCUM OPPORTUNITY

The Weeneebayko Area Health Authority has multiple openings for anesthesia locums at the Weeneebayko Hospital in Moose Factory. The hospital provides care to 12,000 people in the six First Nations communities of the Western James Bay region.

Remuneration for anesthesia care is by a daily per diem of \$1800 and travel arrangements to and from Moose Factory are provided at no cost. There is an added bonus of \$200 per day for coverage of the weeks that are currently open for the 2019 year.

Free accommodation is available. There is a two-bedroom townhouse located across from the hospital that is dedicated for the locum anesthetist. Free internet and cable TV are included along with access to an exercise facility beside the hospital. Locums are usually one to three weeks in duration. The hospital welcomes both fellowship-trained anesthetists and GP anesthetists to apply.
